## OneSight<sup>SM</sup> Global Eye Care Programs

OneSight, a Luxottica Group Foundation, is a family of charitable programs dedicated to improving vision through outreach, research and education. OneSight combines more than 20 years of innovation from three former Luxottica charitable programs into one, new global organization. Since 1988, these charitable efforts have provided free vision care and eyewear to more than six million people in need around the world and have granted millions toward research and education. OneSight volunteers give the gift of sight through four program areas:

- **Global Eye Care** – Helping those around the world
- **Regional Eye Care** – Helping those in home countries
- **Community Eye Care** – Helping those in local communities
- **Preventative Eye Care** – Supporting vision care research and education

Through the **OneSight Global Eye Care program**, volunteers hand-deliver free vision care and eyewear to hundreds of thousands in need around the world each year through temporary Clinics. Through December 2008, OneSight has conducted more than 155 Clinics in 31 developing countries, improving the eyesight and lives of more than three million individuals.
