

## PROGRAM HISTORY

### ABOUT ONESIGHT

OneSight<sup>SM</sup>, a Luxottica Group Foundation, is a family of charitable programs dedicated to improving vision for those in need worldwide through outreach, research and education. OneSight combines more than 20 years of innovation from three former Luxottica charitable programs – Give the Gift of Sight and the Pearle Vision Foundation in North America and Community I-Care in Australia – into one, new global foundation. Since 1988, these charitable efforts have provided free vision care and eyewear to more than six million people in need around the world and have granted millions towards research and education.

## 1986 **OneSight Research programs begin in North America** (formerly known as the Pearle Vision Foundation)
